#### Defining rules and situational factors

“It is true that general rules set forth a good which can never be disregarded or neglected, but in their formulation they cannot provide absolutely for all particular situations. At the same time, it must be said that, precisely for that reason, what is part of a practical discernment in particular circumstances cannot be elevated to the level of a rule.”

#### Offering consideration for people having difficulties with rules

“I encourage the faithful who find themselves in complicated situations to speak confidently with their pastors or with other lay people whose lives are committed to the Lord. They may not always encounter in them a confirmation of their own ideas or desires, but they will surely receive some light to help them better understand their situation and discover a path to personal growth. I also encourage the Church’s pastors to listen to them with sensitivity and serenity, with a sincere desire to understand their plight and their point of view, in order to help them live better lives and to recognize their proper place in the Church.”
